

Physics 102 Spring 2021: Practice Exam problems relevant to Hour Exam 2

Hour Exam 2 will cover content from lectures 5-11. Please note that lecture 5 includes electric field concepts, and lecture 11 splits the Kirchhoff rule concepts. Some of the questions indicated here as relevant to Hour Exam 2 may fall in some of the gray area of these boundary lectures. E.g., you are expected to be able to do simpler Kirchhoff loop questions but will not be expected to solve entire complicated circuits.
